Ken & Ellen Campbell, property at 1278 Arrowhead Beach Rd, appeared before the board for a zoning interpretation on a stop work order issued by code officer. They replaced a carport at their cottage with a 24'x24' - 2 story garage. They would like to install a laundry and hobby workshop. She has no storage in their cottage. The only plumbing they have is conduit in the floor. They were working on insulation when Code Officer James stopped uninvited. They were informed that new permits were required for alteration to previous approved plans and new inspection was required on electrical changes. A stop work order was issued until all permits are applied for. Mr. Campbell feels the red stop work order posted on the building was an embarrassment to his family. He stated Mr. James did not take his explanation of the project seriously. The storage area is insulated and canned lighting will provide the lighting needed for his wife to do her hobbies or bookwork.

Mr. James stated that once the proper permits applications are received and approved, he will lift the stop work order.

Board members concurred that Mr James must follow the NYS Building Code ( International Code) as they were adopted by the Town Board.

Motion to adjourn by Marty 2<sup>nd</sup> Tony, carried at 7:40PM.

Respectfully submitted,  
Betty M Daggett  
ZBA Sec.
