Mr. Hoke read letter form Town planning board dated 9/15/14 recommending approval with the condition that the adjacent property owner to the North has no objections to the request for setback variance along the north property line of the proposed project.

Jason Inda, contractor for the owners stated the project. This Public Hearing has been called upon the Area Variance application 14-6 of Izzo Golf Inc. for three area variances for their property at 2189 Hansen Harbor

1. 16.6' variance for setback from centerline of roadway where 30' is required
2. 4.1' variance for side setbacks from the north property line where a 10' is required minimum
3. 2.1 variance for setback from the mean high water line where 10' is required.

Would like to remodel by adding a garage and bedrooms to existing cottage keeping close to the original footprint. There is a large old tree on property to the south that the owners do not want to remove that is why the addition is closer to the north side. Breakwall will be raised 6' to provide more lawn area.

Clerk presented letter from property owners to the north objecting to the proposed addition will obstruct their view and decrease the value of their home.

After a lengthy discussion North side area variance is the issue. With the Planning Boards recommendation and the neighbors opposition letter the members agreed that the two property owners should meet and given a a chance to negotiate a middle ground on the construction plans.
Code Officer offered to meet with the owners if needed.

This review of the Area variance is tabled and will be addressed at Nov.3 meeting.

The public hearing will reconvene November 3, 2014 at 7:00PM

Motion by Marty, 2nd Chris to adjourn at 8:10.pm carried.

Respectfully submitted,
Betty Daggett Sec.
