**From the Desk of Town Watershed Inspector (*Yates Cty Soil & Water*)**

The Town's inspectors can be contacted at the Yates County Soil and Water Conservation Department 315- 536-5188.

The Yates County Soil and Water Conservation District provides the watershed inspection services for the Town of Torrey and Village of Dresden. Educating homeowners on the function of their wastewater treatment systems has proven to be a tremendous benefit.

In November of 2014, the Town of Torrey passed a local Wastewater Law effective January 1, 2015. Under the new law, any onsite wastewater treatment system within 200' of Seneca Lake or a DEC classified stream is required to be inspected every 5 years. The cost of the inspection is borne by the Town of Torrey (unless this is a property transfer). However any pumping of the septic or repair is a cost to the homeowner. We are now in year 8 of these inspections.

The Watershed Inspection Report as of October 2022 for the Town of Torrey is:

2021- 81 inspections to date

44 Zone 1

13 Real Property Transfer

9 Repairs

3 Tank Replacement

3 Construction

## 9 Misc

2022- 61 total inspection conducted, 15 more Zone 1 is due in 2022

27 Zone 1

17 Real Property Transfer

2 Repairs

7 Replacement System

6 Misc

If any residents have questions regarding the watershed inspection program, they may call the office at 315-536-5188.

Soil & Water also continues to interact with all of our local farmers utilizing NYS's Agricultural Environmental Management program. This program has been utilized in the county since 1997. We have worked with local farmers on a suite of practices including soil erosion and field runoff, manure storage, barnyard runoff, and manure and nutrient management.

- Through the efforts of Ken Campbell, the village received a grant from the Yates County Natural Resource and Recreation program to repair and refurbish the tennis/pickleball courts.
