

July 9, 2025

Greetings Town of Torrey Water District 1 Property Owner,

You are receiving this letter as a property owner in the Town of Torrey Water District 1 who has yet to have a water meter pit installed for your property. This letter serves as a reminder that residents have one year from the completion date of the District to have a meter pit installed at no cost to the property owner. The completion date for the District was September 1, 2024 which means that a meter pit can be installed before September 1, 2025 at no cost. After that date all connections to the District water mains will be at the property owners expense.

If you wish to have a meter pit installed for your property please fill out the enclosed Water Service Application and return it to the Town Clerk. There will be a charge for the water meter itself, approximately \$336.00, but no charges for the installation and tie in to the water main.

Thank You,

Peter Martini  
Supervisor  
Town of Torrey
