Nathan Riehl contractor for Ms. Cain presented the project. Building new deck on lakeside of home. No entryway from the deck front. There are two existing porches on north and south sides of home to be replaced. These stairways will not meet the side setbacks requirements.

There was no one appearing to speak in support or opposition of this area variance application.

Bob went through the 5 questions criteria for granting an area variance. Using the responses from Ms. Cain and Mr. Riehl for each question to factor in when considering together show a greater benefit to the applicant if the area variance is granted, than a burden to the community.

There being no further questions from the members or attendees, Bob closed the hearing at 7:15 PM

Respectfully submitted,
